

Chainhold Tension Device

Is your current Tension Device compliant?

Effective June 1, 2024, all window coverings with a chain or cord loop **MUST** have an ANSI/WCMA A100.1.2022 compliant tension device.

The Rollease Acmeda Chainhold Tension Device has been tested and approved to comply with the [ANSI/WCMA A100.1-2022 safety standard](#).

Chainhold features

- Quick and easy assembly
- Fast installation with outside mounting bracket available
- Smooth operation with both Rollease Acmeda metal and plastic stop balls and chain connectors

Many tension devices are not compliant
